Example of the generic bid without prefer off.

When bidding for a line of Pairings, we recommend a basic bid that includes all the waivers, set condition minimum credit, and generic award pairing preferences targeting high time pairings. Including the waivers is optional, but we do recommend including all for the best chance to be awarded a line of pairings.

If the prefer off are more important than holding a line of pairings, please select the instruction Else Start Next Bid Group along with the prefer off, so that the system forces Reserve if the days off are most important.
